About me. Hardworking educator experienced in collecting and evaluating data in online courses in order to make effective plans and materials decisions. Looking for a challenging new role with room for advancement. Skilled Curriculum Coordinator adept at setting course objectives, selecting materials and overseeing program deployment. Well-organized and detail-oriented with an adaptable approach. Bringing 6+ years of progressive experience as an educator.

SKILLS

- Learning Management Systems
- Course Management
- Reliability
- Time Management
- Multitasking
- Effective Communication
- Decision-Making
- Problem-Solving

EDUCATION

2015 - 2018
Mumbai University

Bachelor of Science in Information & Technology
K.D.B. College, Ratnagiri

2019
Pune

CCNA Certification
SevenMentor Institute

EXPERIENCE

December 2020 – Current Company **Bell Immersive Technologies**
Pune, India

➤ As a Senior E-Learning Developer :

- Developed e-learning courses in Articulate Storyline, Articulate Rise and Captivate tools.
- Developed course materials with engaging activities, quizzes, and assessments to measure student progress.
- Created multimedia content for online courses such as video lectures, audio files and animations.
- Integrated Learning Management System into existing websites for easy access of online courses.
- Conducted user testing to ensure the quality of the e-learning environment.
- Provided technical support to users experiencing difficulties accessing or navigating e-learning content.
- Developed e-learning online courses for ADNOC, FAB, DAMAC, Anglo Eastern, DIB, EGA, ADAC, NBO, KPC, ENBD, etc. client.

➤ As a Graphic Designer :

- Self-taught Graphic Designer with hands-on experience creating visual assets for e-learning, corporate training, presentations, and digital content.
- Designed illustrations, infographics, icons, banners, posters, social media creatives, and presentation graphics based on project requirements.
- Created engaging visual concepts by combining AI-generated assets, stock resources, illustrations, and custom design elements.
- Used Freepik and similar creative-resource platforms to source high-quality graphics, vectors, illustrations, icons, and visual references.
- Leveraged AI tools and generative AI to create and enhance visual assets, concepts, backgrounds, characters, and creative compositions.
- Developed visuals that maintain consistent typography, color palettes, spacing, composition, and visual hierarchy across projects.
- Created custom illustrations and infographic-style visuals to simplify complex information and make learning content more engaging.

➤ **AI Video Creation & E-learning Content Development :**

- Developed AI-generated videos and visual content using Gemini based on e-learning scripts, storyboards, and learning objectives.
- Transformed training concepts, instructional content, and voice-over scripts into engaging video sequences suitable for digital learning.
- Created customized AI visuals and video scenes aligned with the module's learning objectives, instructional flow, and visual design requirements.
- Used AI-generated content to support scenario-based learning, conceptual explanations, demonstrations, and storytelling within e-learning modules.
- Collaborated with instructional designers and project teams to understand requirements and ensure AI-generated videos aligned with the client's content, branding, and course structure.
- Integrated AI-generated videos into Articulate Storyline 360 and other e-learning modules, ensuring smooth alignment with narration, on-screen text, animations, and interactions.
- Iterated on AI-generated visuals and video outputs based on QA feedback, client comments, and design requirements.
- Applied prompt engineering techniques to generate more accurate characters, environments, actions, camera perspectives, and visual styles for training content.
- Leveraged generative AI to improve the speed and efficiency of video-content production while maintaining consistency with the overall e-learning experience.

➤ **Moodle LMS – LMS Administration & Development Fundamentals:**

Moodle Training / Professional Development

- Gained foundational knowledge of Moodle LMS course creation and configuration.
- Learned how to structure courses using activities, resources, sections/topics, and learning content.
- Developed an understanding of the Moodle course creation workflow and how learning content is organized within an LMS.
- Learned the fundamentals of setting up a Moodle development environment for course development and testing.
- Gained hands-on exposure to the Moodle development setup, configuration, and local testing workflow.
- Understood the basic relationship between eLearning content, LMS course structure, and learner access.
- Developed foundational knowledge relevant to LMS administration, eLearning deployment, and course management.

➤ **Project Coordination – Additional Responsibilities:**

- Assisted in planning and coordinating project activities to meet timelines.
- Maintained project trackers and monitored task progress.
- Coordinated with team members to follow up on tasks, priorities, and pending activities.
- Communicated project updates and requirements with relevant team members and stakeholders.
- Gained practical understanding of project coordination, task management, team communication, and delivery tracking.
